

Metron 05 VT

METAL DETECTION

METAL DETECTOR FOR VIBRATORY CONVEYORS

Reliable *in Process and Detection*
Durable *in Technology and Performance*
Easy *in Installation and Handling*

No 'metal free zone' required
Highly sensitive to ferrous, non-ferrous and stainless steel
Quick and easy installation
User friendly operation
Models to fit every application
No matter which shape your trough, we have the right size metal detector!

Applications

Machinery protection
e.g. chippers

Installation

Cut the trough according to the drawing.

Install the sensing coil.

Allow for movement of the interconnecting cables (coil to electronics).

Form a 20 cm (8") loop with the transmitter/receiver cables at the coil end.
